

PROFIL

Born in 1986, married to Tanna and has 2 children from 2017 and 2020. Ambitious and focused on the goal, with social skills and a broad understanding of different western cultures. Due to my position in SMEs, I have a broad understanding of many different areas such as; Personnel, sales (both off- and on-site), quality management, supply chain, production technology, production and planning, 3D drawing and structuring and most importantly business development
